Subject: Microsoft Settlement

I urge the Federal Government and those states involved in the settlement of the anti-trust case with Microsoft in November 2001 to continue with the process of settlement and see it through to its completion. I have read the terms of the settlement and the punishment of Microsoft is stern but fair for all involved. I and the other consumers who ultimately drive the economy will benefit from this settlement and that is of utmost importance today. It is time for the Federal Government the participating States and all those who seek to further delay this settlement to move on to other issues by allowing the completion of this settlement and ending the Microsoft anti-trust case once and for all.
